The target audience for this educational symposium is *Nurses, Administrators (NAB), Physicians, Medical Directors, Social Workers, and Case Managers*; there are **5 continuing education credits** awarded for each of these disciplines. You will have the opportunity to network with peers and industry vendors in long-term-care and assisted living. This symposium will review the three major criteria for these new benchmarks: addition of antipsychotic medications to the quality measures in both long and short stays, raising performance expectations by raising standards, and a review on the new staffing measures for levels of care. This program is **free of charge** to all of Partners Pharmacy / Ascend Hospice clients and invited guests.
